RE: **Notice of Ex Parte Presentation**

ET Docket No. 00-258

Dear Secretary Dortch:

On March 4, 2004, Stephen Berger (TEM Consulting, LP), and Mark Esherick (Siemens Corporation) met with Barry Olson (Legal Advisor to Commissioner Adelstein), to discuss rule changes associated with the FCC's consideration of the UPCS Band (ET Docket 00-258).

Siemens, representing the DECT forum, described the benefits of introducing DECT technology in the U.S. market. We also recommended that the FCC take the following actions:

- Remove fixed channelization;
- Set maximum bandwidth of 2.5 MHz;
- Extend the isochronous band down to 1915 Mhz;
- Remove the packing rule, section 15.323(b).

Pursuant to sections 1.1206(b)(1) and 1.1206(b)(2) of the Commission's rules, an original and one copy of this letter along with the associated enclosures are being filed with the Office of the Secretary in the above-referenced docket. Copies are also being served on the Commission personnel in the meeting.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Esherick".

Mark Esherick

cc: Barry Olson
